Re: Media Ownership

This is to let you know that I am vehemently opposed to any loosening or elimination of regulations that limit the number of Newspapers, Radio Stations and Television Stations that one company may own.

There are already too few Media outlet owners, that are controlling whole towns, counties and surrounding areas. These areas that are monopoly controlled only report what they want us to know, not all the news. There are two sides to every issue and we deserve to know both sides of every issue so we can reach a just decision.

Where are all those Anti-Monopoly laws?

If any action, in this matter is taken, it should be to rewrite regulations so a media owner can only own one media outlet in a town or county that can't be declared unconstitutional by the judiciary.

This writer certainly does not want a multiple media owner to control what he can see, read or think. I want to know about all issues and hear both sides of every issue.

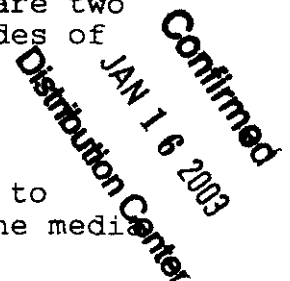

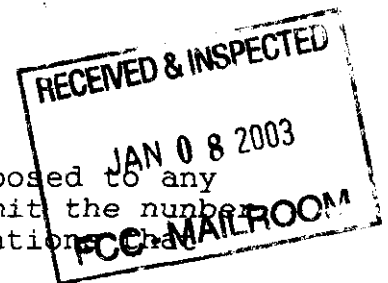

Please note that everyone does not have Internet. Anyone can say anything on the internet, true or not. T-V news is probably the main source, where most people get their news.

There needs to be regulations to keep the Independent Media outlets and prevent a monopoly of the Media being formed.

This writer is urging you to tighten current Media ownership standards and prevent and restrict the growth and formation of the Media Monopoly in this country.

Very truly yours,

*J. W. De Moss*
